Promotion The Big Bridge Part 50

I've been thinking that El Puente Grande doesn't just mean dignity. You should also rate a better use of natural resources. We should not be burning wood to prepare food if there is an alternative. Today, we show that Hu-Fi and existing technology can empower us to take a step forward in protecting Mother Nature.

Taking this into account:

1. Ask for an electric stove. Pay \$ 10.00 and share the screenshot on the main channel and my personal channel, and I will send \$ 10.00 to credit the loan.

<https://eosmarketplace.io/#/business/kamalwalidkw>

2. Share a photo cooking a dish with the stove on the main channel and on my personal channel, and I will send \$ 10.00 to pay off the loan completely.

Terms:

① One per family

② There are only 50 of the electric stoves.

③ Although it is not required, please sign the petition. This promotion is in support of those who have unjustly lost their freedom. It continues to show that this is a movement for the benefit of the community for the community. Cheer up guys.

The promotion ends with the last kitchen sold.
